HAZARDS & PROTECTION (RISK ASSESSMENT)

ESSENTIAL PPE FOR THE WORK AREA:

- Specialized dust mask for toxic inhalation.
- Protective goggles for eye safety.

PROTECTION

- Eye Protection, Provide gloves.
- Proper storage of hazardous material.
- Face Mask.

HAZARD RISK

- Coating
- Handling
- Inhalation

HEALTH, SAFETY AND ENVIRONMENTAL POLICY

Al Karawan, a renowned provider of Refractory and Heat Insulation Products, places paramount importance on Health, Safety and Environment (HSE) practices. Going above and beyond regulatory requirements, we focus on:

- Crafting superior products while minimizing ecological footprint through efficient resource utilization and recycling initiatives.
- Prioritizing the prevention of harm by implementing rigorous risk management protocols and ensuring the well-being of our employees, customers and communities.
- Regularly evaluate and refine our HSE objectives to uphold the highest standards.
- Equipping our workforce with comprehensive training and fostering open communication to enhance awareness and participation in HSE initiatives.
- Actively engaging with stakeholders, including customers, suppliers and regulatory bodies to advocate for and uphold positive HSE policies.

Our transparent and accessible HSE policy underscores our unwavering commitment to excellence and sustainability across all facets of our operations.

SAFETY POLICY

Safety is our top priority, and we uphold a zero-compromise stance on safety measures. Our company's safety department has developed an in-house Safety Manual outlining essential procedures. This department is overseen by a dedicated Safety Officer responsible for establishing and implementing new safety standards. However, adherence to these standards is the responsibility of every individual.

Embracing good safety practices fosters a secure working environment. Regular "Safety Refreshing Seminars" are conducted by safety engineers to reinforce these practices. Hazardous activities undergo periodic inspection, review, and approval before commencement. Additionally, the Safety Manual complete with instructions is distributed to project-involved experts.

Mandatory participation in a "Safety Awareness Course," organized by the safety department is required for all employees. Furthermore, safety inspection procedures are conducted on equipment and machinery to ensure comprehensive safety measures.

CONTRACTORS HSE

QUALITY, HEALTH, SAFETY & ENVIRONMENT MANAGEMENT

Our organization is committed to the highest standards of Quality, Health, Safety and Environment Management. Here are some key points about our practices:-

- We have a current, signed and dated Health & Safety Policy in place.
- We maintain written work instructions and safe procedures for all tasks.
- Site Specific Safety Plans (SSSP) are developed for contract work.
- We have robust processes to identify, report and control workplace hazards, including Risk Assessments (RA), Work Method Statements (WMS), and Job Safety Analysis (JSA).
- Our safety department ensures that all equipment, machinery and tools are regularly checked and tested for suitability.
- Regular Health & Safety inspections and audits are conducted.
- We provide comprehensive staff induction and training programs covering Hazard Identification, Emergency Procedures, Plant and Equipment Procedures, PPE Requirements, and Special Work Procedures.
- Specially trained or qualified employees handle tasks requiring specific competencies or licenses, such as forklift operation, mobile crane operation, electrical work, rigging, plumbing or working with Elevated Work Platforms (EWP).
- We have an effective accident/incident reporting and recording system in place.
- Over the past two years, our organization has not experienced any of the following incidents: fatality, major equipment damage, Lost Time Injuries (LTIs), occupational illnesses/diseases, or environmental incidents.
- Our organization has never been subjected to the following by the Ministry of Labour, sector regulatory authorities, or any other relevant government departments:
 1. Warnings
 2. Improvement notices
 3. Prohibition notices
 4. Enforceable undertakings
 5. Stop work notices
- We have established emergency response procedures to address worksite emergencies.
- Our organization maintains certified first aiders onsite who are capable of responding effectively in the event of an emergency.
- We have devised rescue plans for personnel working in confined spaces or at heights utilizing safety harnesses.
- We have implemented a process for the selection and monitoring of subcontractors if engaged.
- Our organization possesses a current, signed, and dated Environmental Policy.

- We have developed a Waste Management Plan.
- Our organization adheres to the Center for Waste Management-approved ESP in the Emirate of Abu Dhabi or the Dubai Municipality-approved ESP for waste disposal.

THE MAIN PURPOSE OF THE POLICY :

- a. Enhance personal safety measures.
- b. Implement systematic monitoring of the working environment to mitigate health hazards.
- c. Establish a systematic approach for addressing lost time incidents and near-miss accidents.
- d. Ensure zero accidents throughout the project execution.

SAFE PRACTISE

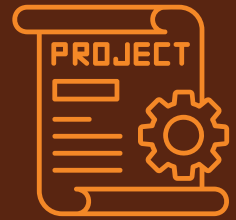

- A safety induction, by the HSE policy, will be conducted before the project commences.
- Prioritize making work both safer and more efficient.
- Maintain an active safety culture policy to uphold the principle of risk prevention.
- Implement preventive measures to mitigate or eliminate risk factors.

QUALITY STATEMENT

At Al Karawan Refractories, our Quality Control Policy is geared towards delivering products and services that adhere to high-quality standards. To achieve this, we've developed a comprehensive quality control plan aligned with both international and local quality standards. This plan outlines organizational policies ensuring that all industrial services and activities are conducted under monitored conditions, in line with specified requirements and relevant international standards. Our Quality Assurance Plan delineates requirements, assigns responsibilities, and establishes principles crucial for enhancing quality. Compliance with these standards is obligatory for all projects.

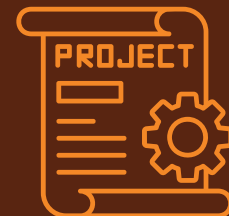

PROJECTS LIST

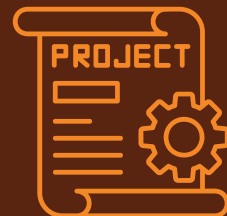

Sl. No	PROJECT	CUSTOMER	LOCATION
1	Refractory Work Moving Hearth Furnace - Largest Furnace in UAE	Emirates Iron & Steel Co.	Mussafah, Abu Dhabi.
2	Acid Resistance Brick lining - Sulphur Pit	ENOC	Jafza
3	Refractory Lining Furnaces, Boilers, Primary Reformer, Neutralization Pit & Secondary Reformer	Green dome petrochemicals	Hamriyah Free Zone, Sharjah
4	Furnace Refractory Lining Electric Heat Treatment	Belleli Hanover	Hamriyah Free Zone, Sharjah
5	Refractory Re Lining Atmospheric heater	FRCL	Fujairah
6	Boiler Refractory Lining	SASOL Gulf	JAFZA
7	Refractory Lining - Rotary Kiln	GIBCA Minerals	Ajman
8	Incinerator Refractory Lining	Dubai Municipality	Dubai
9	Cold Insulation for Brine Tanks Polyurethane Injection	Emirates Airlines	Dubai
10	Furnace Refractory Lining	ALICO Industries	Sharjah
11	Refractory Lining Inside Asphalt Heater	EPPCO	JAFZA
12	Dryer Vessel Refractory Installation, Insulation and Cladding	Henkel Polybit	Umm Al Quwain
13	Boiler Refractory Insulation	Jebel Ali Carton Factory	JAFZA
14	Heating Furnace - Refractory Installation	CAFFCO	Sharjah
15	Laboratory Furnace - Refractory Lining	GIGGA Gold Refinery	Dubai

Sl. No	PROJECT	CUSTOMER	LOCATION
1	Refractory Lining Pre-heating zone, Electric Bogie Furnace	Hydro Inc.	DIP- Dubai
2	Refractory Lining Bio Medical Waste Incinerator	CVR Laboratory	Zabeel 2- Dubai
3	Steam Boiler Refractory	Descon Engineering	Hamriya FZE -Sharjah
4	Furnace Refractory Works Aluminum Smelter (Outlet Channel)	Gutmann	Technopark - Jabel Ali Dubai
5	Furnace Refractory, Tundish	Gutmann	Technopark - Jabel Ali Dubai
6	Refractory Brick Works, Glass Melting Oven	Chochoma	Al Quoz, Dubai
7	Waste Heat Boiler Refractory	Descon Engineering	Hamriya FZE -Sharjah
8	Water Bath Heaters (Stack Refractory)	Ferrofab Group	JAFZA, Dubai
9	Refractory Relining of Copper Melting (Holding) Furnace	Union Copper Rod LLC	Mussafah- Abu Dhabi
10	Tube Sheet, Boiler Refractory	Descon Engineering	Hamriya FZE -Sharjah
11	Desalter (Chamber Refractory)	Ferrofab Group	JAFZA, Dubai
12	Holding Furnace Refractory, Steel Melting Furnace	CICON	Mussafah, Abu Dhabi
13	1 st Stage Desalter, Refractory 2 nd. Stage Desalter, Refractory	Descon Engineering	Hamriya FZE -Sharjah
14	STACK Refractory	Ferrofab Group	JAFZA, Dubai
15	Holding Furnace, Refractory	Union Copper Rod LLC	Mussafah- Abu Dhabi
